New Hope barely misses in bid for state softball crown

New Hope Baptist Church men's softball team won second-place honors in the state Class A church tournament Aug. 4 and 5 in Bristol.

Fifteen teams from around the state participated in this tournament.

New Hope started the tournament off by playing the first game at 8 a.m. Saturday morning with a win, advancing them to the 11 a.m. game. This game was against Fellowship Chapel of Bristol. New Hope couldn't get going again and fell to Chapel 7-1. Now in the losers' bracket, New Hope would continue to play as long as they kept winning. New Hope won three more games on Saturday.

On Sunday the playoffs started. New Hope began playing again at 1 p.m. in 95 degree heat. They had to stay on the field until they lost. New Hope won at 1 and took a five-minute break. They played again at 2, winning, and took another five-minute break.

New Hope played for the first place in the state against Fellowship Chapel. Chapel was undefeated, so this meant New Hope would have to beat them twice starting at 3 p.m.

New Hope was ready to try and win the gold for themselves and the small town of Appomattox. Off to a great start, New Hope won the first game 11-3. Tired and hot, the team started the second game at 4:00 p.m. With the sun beaming down on New Hope, the second game was underway. Unfortunately, things did not go as well for New Hope. The second game ended 6-1; Fellowship Chapel won the state title.

New Hope Men's Softball team is very proud of their accomplishments this year and of placing second in the state tournament. Also, they extend thanks to those who gave donations and support to the team this year.

Schools release plans for free, reduced lunches

Appomattox County Schools this week announced its policy for free and reduced price meals for children unable to pay the full price for meals served under the National School Lunch Program.

Each school and the School Administration Office has a copy of the policy, which may be reviewed by any interested party.

The following house hold size and income criteria will be used for determining eligibility:

Household Size	Maximum Household Income for Free Meals	Household Income for Reduced Price Meals
1	$ 6,578	$ 6,579 - 9,313
2	8,736	8,737 - 12,483
3	10,898	10,899 - 15,651
4	13,200	13,361 - 18,870
5	15,522	15,523 - 22,089
6	17,704	17,705 - 25,308
7	20,046	20,047 - 28,527
8	22,308	22,309 - 31,746
For each additional household member, add	2,262	3,219

Children from families whose income is at or below the household levels shown are eligible for free or reduced price meals.

Application forms are being sent to all homes with a letter to parents or guardians. To apply for free or reduced price meal, households should fill out the application and return it to the school. The information provided on the application will be used for the purpose of determining eligibility and may be verified at any time during the school year by school or other program officials.

For the school officials to determine eligibility, the household must provide the following information listed on the application: names of all household members; social security numbers of all adult household members or a statement that the household member does not possess one; total household income or the household's food stamp case number certifying that the information provided is correct. Households are required to report increases in household income of over $50 per month or $600 per year and decreases in household size.

Applications may be submitted at any time during the year.

Under the provisions of the free and reduced price policy, the principal will review applications and determine eligibility. If a parent or guardian is dissatisfied with the ruling of the official, he may wish to discuss the decision with the determining official on an informal basis. If the parent wishes to make a formal appeal, he may make a request either orally or in writing to Richard B. Carter, Appomattox County School Board, P.O. Box 548, Appomattox, Virginia 24522, telephone number (804) 352-8253, for a hearing to appeal the decision. The policy contains an outline of the hearing procedures.

If a household member becomes unemployed or if the household size changes, the family should contact the school. Such changes may make the child of the household eligible for reduced price meals, or for additional benefits such as free meals if the family income falls at or below the levels shown above.

In certain cases foster children are also eligible for these benefits. If a household has foster care children living with them and wishes to apply for such meals for them, the household must complete an application.

The information provided by the household is confidential and will be used only for purposes of determining eligibility and verifying data.

In the operation of child feeding programs administered by the U.S. Department of Agriculture, no child will be discriminated against because of race, color, sex, national origin, age or handicap. If any member of a household believes they have been discriminated against, they should write immediately to the Secretary of Agriculture, Washington, D.C. 20250.

Saccharin still used

By SHIRLEY W. WALTON

[NOTE: Trade and brand names are used only for the purposes of information and the Virginia Cooperative Extension Service does not guarantee nor warrant the standard of the product nor does it imply approval of the product to the exclusion of others, which may also be suitable.]

Even though the label may say something like, "Now with NutraSweet," most soft drink companies are using the aspartame sweetner in addition to, rather than in place of, saccharin.

Consumers who think they are playing it safe and totally avoiding saccharin are being misled. The reference to NutraSweet usually is quite noticeable, while the only hint that saccharin is used in the product may be in the very small print with the nutritional information.

The discrepancy recently cost Coca Cola $20,000 after the New York State Attorney General acclaimed that ads for two of its diet drinks were misleading. The company also agreed to change its advertising and labeling claims.

Aspartame is available for home use under the name of Equal. One teaspoon of Equal has only four calories, but is a sweet as two teaspoons of sugar, with 32 calories. Aspartame products should be used in moderation and be avoided by persons having PKU (Phenylketonuria).

While there is no evidence of harm from NutraSweet or Equal, moderation is a good idea since the products are relatively new. The Food and Drug Administration first approved Aspartame in 1974, but suspended approval a year later. After further study, it was reapproved in 1981 as safe at normal levels of consumption.

This information has been shared with you this week so that you can be aware of label information when you purchase products that have sweeteners added.

If you have a homemaking question or problem, you may call 325-8244 or you may write P. O. Box 488, Appomattox, VA 24522.

Have a good week!
